ADFORS Novelio®

Paintable Glass Textile Wallcovering
Innovative • Sustainable • High Performance

What makes ADFORS Novelio® an ideal choice for your walls?

ADFORS Novelio® Wall Coverings offer a wide range of woven and non woven paintable wall coverings made of glass fiber for protection and decoration of walls and ceilings. They can be used in new construction: adds high performance features from the beginning, provides an aesthetic appearance, and prevents future cracks from appearing; and in renovation projects: provides a more aesthetic appearance, and easily cover cracks and wall irregularities with minor surface preparation. As a result, the walls are durable and long lasting.

ADFORS Novelio® Classic standard woven glass textile wallcoverings					
		g/m²	oz/yards²	m	yards x inches

ADFORS Novelio®

Paintable Glass Textile Wallcovering
Innovative • Sustainable • High Performance

CRACK PREVENTION
Reinforce surfaces
and cover existing cracks.

HIGH IMPACT RESISTANCE
Protect the wall against heavy
impact thanks to glass fibre.

HYGENIC
Made of inorganic material and
washable.

LONG SERVICE LIFE
Lasting for more than 20 years,
reducing costs maintenance.

REPAINTABLE
Repaintable unlike conventional wall coverings.

EXCELLENT REACTION TO FIRE
ASTM E84 Class A Fire Rated

BREATHABLE
Allow underlying moisture to escape,
preventing mold, fungi and bacteria formation.

ECO-FRIENDLY
Our products are certified by Oekotex
standard 100, incorporate more than 90% of
biosourced material, no harmful substances.

CleanAir treatment
– the solution improving indoor air quality.

Formaldehyde is released mainly by laminated furniture, new floor coverings, some paints or glues. That is why it is highly present after a renovation or a construction. This VOC is trapped within the wallcovering and not released back into the air. The principle is active even after several coats of paint. Other glass fibre characteristics remain, such as impact and fire resistance. It makes ADFORS Novelio® CleanAir ideal for schools, hospitals, hotels and other private or public buildings.

CleanAir performance
The product can immediately absorb up to 70% of formaldehydes for 10 years or more.

ADFORS Novelio®
CleanAir technology

1. FORMALDEHYDE ABSORPTION
2. PERMANENTLY CAPTURED
3. NEVER RELEASED

ADFORS Novelio® CleanAir

Mold-X treatment
– the solution improving the sanitary environment.

Mold and bacteria quickly develop under the influence of heat, humidity and some nutriments and can cause irritation, asthma and other diseases. Our Mold-X treatment knows how to protect you even after several layers of paint. It makes ADFORS Novelio® ideal for kitchens, bathrooms and wet rooms in private and public buildings.

Mold-x performance

Anti-bacterial and anti-fungal performances of painted products have been assessed by official labs. For maximum protection use in conjuction with a special anti fungal or anti bacterial paint (hospitals).
